

FOUNDERS

 **Dharmik Malaviya – Co-Founder**

 **Mitesh Kachadiya – Co-Founder**

With deep expertise in fire protection systems, safety engineering, and compliance services, both founders have built AdTech Fire & Safety Solution on strong values, technical excellence, and customer trust. Their vision drives the company toward becoming a leading fire safety service provider across multiple sectors.

About Us

- ◆ Adtech Fire & Safety Solution is a trusted and professionally managed company specializing in **fire protection systems, safety equipment, fire audits, and surveillance solutions.**
- ◆ We deliver end-to-end services including design, supply, installation, inspection, repair, AMC, and compliance support for residential, commercial, industrial, and institutional clients.
- ◆ Our commitment is simple:
“Protecting Lives. Securing Properties. Ensuring Safety.”
- ◆ We combine advanced technology, certified products, skilled manpower, and a practical approach to deliver safety solutions that are reliable, cost-effective, and compliant with IS standards.

Fire & Safety Solution
(SMC APPROVED)

Vision

- ◆ To become the region's most dependable, innovative, and customer-focused fire & safety service provider, ensuring maximum protection for every client and project.

Mission

- ◆ Provide superior fire protection systems using certified and internationally compliant products.
- ◆ Ensure flawless installation, timely service, and complete safety compliance
- ◆ Educate clients on fire prevention, risk reduction, and emergency preparedness.
- ◆ Build long-term relationships through trust, support, transparency, and quality service.

Core Values

- ◆ **Safety First:** Every decision is driven by safety and protection
- ◆ **Integrity:** Honest service and transparent practices.
- ◆ **Innovation:** Adoption of modern technologies and upgraded systems.
- ◆ **Quality Assurance:** Only certified, tested, and approved equipment used.
- ◆ **Customer Commitment:** Total focus on customer satisfaction and long-term support.
- ◆ **Reliability:** On-time execution and prompt response during emergencies.
